

# Master of Science in Global Logistics

navigate

Learn to maneuver in complex,  
fast-paced logistics environments.

## Deliver Success from Point A to Point You

Global logistics is critical to business success, meaning there's ongoing demand for global logistics expertise and plenty of room for career growth. That's why the W. P. Carey School created the Master of Science in Global Logistics (MS-GL) — so you can build a strong foundation in both specialized and practical logistics knowledge, and prepare to lead in a growing international field.

You'll become an expert in all things logistics, broaden your understanding of international and multicultural perspectives, learn to generate revenue by creating efficiency, and prepare for a vital role in the global economy. Moreover, because logistics touches every part of the supply chain, you'll have the skills and flexibility to pursue careers in a variety of areas like operations, forecasting, transportation, purchasing, and more.

## W. P. Carey Experience

The W. P. Carey School of Business offers a unique environment focused on your outcomes, with an emphasis on small class sizes and personal attention combined with all the resources of the university ranked #1 Most Innovative School by *U.S. News & World Report*.

Offered at ASU's Tempe campus, the MS-GL is connected with Phoenix's logistics community. It's the ideal place for you to learn the ropes and connect with top companies, while gaining a real-world perspective on concepts covered in class.

## MS-GL Fast Facts

Global logistics plays a huge role in ensuring the supply chain runs smoothly. A role so major that the Bureau of Labor Statistics expects a 26 percent increase in logistics jobs by 2020, and a 29 percent rise in the need for freight agents by the end of the decade. The MS-GL prepares you to tap into an emerging field with a bright economic outlook, across a variety of positions in logistics and related areas of the supply chain.

- 9-month program starting in August
- On-campus orientation at the beginning of the program
- Classes meet Monday through Friday on ASU's Tempe campus
- Lock-step curriculum allows you to progressively build upon concepts
- An off-campus trip provides an exclusive look at global logistics infrastructure
- W. P. Carey Logistics Alliance connects you with internships and job opportunities
- Unique access to over 30 major companies and distribution centers in the greater Phoenix area

The W. P. Carey MS-GL is delivered by the highly regarded Department of Supply Chain Management, consistently ranked among the best in the country by *U.S. News & World Report*.
